I have been a member for years and have always saved a little each month, that way I don't even 'see' the money but know it is saved. Then near Christmas I withdraw most of it and use it to buy presents, it saves the worry over how I will afford them each year. I love supporting a local credit union and I refer residents there too, for loans, current accounts and savings!
Rebecca

The payroll deduction scheme was easy to set up and I've been able to change the amount saved each month with a single email to the Finance Team. Clockwise also has an app for easy access to my savings account that allows the instant transfer of money from my savings account to my current account as and when I have needed it.
